Founder's Message

Empowering Young Minds

At TBS, we pride ourselves on offering an unparalleled educational experience. By combining academic excellence with experiential learning, we foster work ethic, values and a joy for learning in our students.

In line with the National Educational Policy (NEP), we've developed the Pre-School to Class 2 program to be interactive and adaptable to the unique needs of the children. As we move to higher classes, we introduce tech-based knowledge and project-based activities to ensure a stimulating learning experience that enables these young minds to follow the growth mindset. Our focus on fundamental concepts establishes a solid base for long term success, including those in futuristic careers.

In 2024, our first Class 10 batch did us proud in the CBSE Board Exams. The school topper at 93.6% and the subject toppers are a testimony to the teaching standards at The BIPF School. With the introduction of Class 11, we are offering students beyond the science and commerce stream – providing our senior secondary students a cross-sectional mix of subjects in line with wide spectrum of jobs in this dynamically changing world.

Recognizing the transformative power of inspired teaching and exemplary guidance, we prioritize professional development initiatives for all teaching staff to augment their pedagogical expertise and refine their skills regularly. This allows us to enhance the impact on our students and the education ecosystem, bringing updated teaching methodology to the locality of Choudwar and Cuttack.

The BIPF School is now a Senior Secondary School, and we look forward to igniting potential of our new batch of students from Pre-School to Class 11 in the academic year 2025-2026.
