# Founder's Message

I firmly believe that education has the transformative power to build character, orient a positive mindset, and help one lead a disciplined way of life.

At The BIPF School we understand that every child is unique, and it's our responsibility to identify their strengths and interests to guide them towards the right career path. Our experienced faculty and staff work closely with students to create a perfect balance of academics and wellness, ensuring that each child has access to the best possible learning environment.

At TBS we enable students to sharpen their intellect beyond books, through interactive sessions and exposure visits on personality enhancement, life skills, etiquette, and cultural values. While doing so our primary objective is igniting potential.

Extracurricular activities play a vital role in the overall development of a child. We encourage our students to participate in various sports, cultural events, and competitions. Our students have consistently brought laurels to school, and I am delighted to share that recently we won several medals and accolades at the Block Athletic Meet, Choudwar and the Science Champion Award.

The journey from pre-school to senior school is a significant milestone in a child's life. For this we have designed a comprehensive curriculum that caters to the needs of students at every stage. While our juniors learn through experiential learning and project-integrated activities, the senior secondary programme offers a diverse range of subjects to equip students with versatility and prepare them for the vast array of career opportunities. Our dedicated team of teachers and staff ensure that each child receives the care and attention they need to succeed.

We look forward to welcoming our next batch of students from Pre-School to Class 12 for the academic year 2026-27. At The BIPF School, the faculty work with parent and guardians to create a secure and happy environment of childcare.

Together let us give our children a future of excellence !
